Official Cohort Default Rates for Schools

A cohort default rate is the percentage of a school's borrowers who enter repayment on certain Federal Family Education Loan (FFEL) Program or William D. Ford Federal Direct Loan (Direct Loan) Program loans during a particular federal fiscal year (FY), October 1 to September 30, and default or meet other specified conditions prior to the end of the second following fiscal year. Please refer to the Cohort Default Rate Guide for a more in-depth description of cohort default rates and how the rates are calculated.

The U.S. Department of Education releases official cohort default rates once per year. The FY 2014 official cohort default rates were delivered to both domestic and foreign schools on September 25, 2017, electronically via the [eCDR process](#). All schools must enroll in eCDR to receive cohort default rate notification. Schools may [check their eCDR enrollment online](#) or by calling CPS/SAIG Technical Support at 800-330-5947.

Secretary DeVos announced that the **FY 2014 national cohort default rate is 11.5 percent**. The Department also released a summary of the [FY 2014 official cohort default rates by state](#) and by [institution type](#). We are also providing a [briefing](#) on the national default rates.

Schools may also obtain an electronic loan record detail report via the [National Student Loan Data System \(NSLDS\) Professional Access website](#). A loan record detail report contains the data used to calculate a school's FY 2014 official cohort default rate. Assistance in accessing the NSLDS site or with downloading an electronic loan record detail report is available through NSLDS Customer Service at 1-800-999-8219.

For schools interested in taking actions to manage defaults, and for schools required to submit a default prevention plan based on at least one year of a cohort default rate equal to or greater than 30 percent, please refer to the federal regulations at 34 CFR 668.217 and Appendix A within that section.

Important Note: Some schools have a small number of borrowers entering repayment. At other schools only a small portion of the student body takes out student loans. In such cases, the cohort default rate should be interpreted with caution as these rates may not be reflective of the entire school population.

Search the Cohort Default Rate Database **GO**

3. Type "Brightwood College" in the School field.
4. Select "Tennessee" for the State.
5. Click the "Search" button

OPE-ID:

You may also search for a school by name and/or address. You may use a percent sign (%) as a wild card character. For example, a search for University of M% returns University of Montavello and other schools with similar text in the name:

School:

Address:

City:

State:

Note that searching by the above criteria alone may generate a tremendous list. As such, you may do well to limit your search by filling in additional fields below.

Show only schools in the following categories:

Type of Institution:

Type of Academic Program:

Eligibility Status:

Please note: The Average Rate Formula is used to calculate the official cohort default rate for a school with 29 or fewer borrowers entering repayment during a cohort fiscal year if that school had a cohort default rate calculated for the two previous cohort fiscal years. If a school does not have 3 consecutive years of CDR data to calculate the Average Rate Formula, the rate is considered unofficial. In addition, cohort default rate data for schools with 10 borrowers or less in repayment will not be shown.

Search **Clear**

6. There should only be one search result. The name of the school on the right is a link; click it.

					Enrollment figures	1,291	1,600	1,780
					Percentage Calculation	57	50.2	49.8

ENROLLMENT: To provide context for the Cohort Default Rate (CDR) data we include enrollment data (students enrolled at any time during the year) and a corresponding percentage (borrowers entering repayment divided by that enrollment figure). While there is no direct relationship between the timing of when a borrower entered repayment (October 1 through September 30) and any particular enrollment year, for the purpose of these data, we have chosen to use the academic year ending on the June 30 prior to the beginning of the cohort year (e.g., FY 2014 CDR Year will use 2012-2013 enrollment).

Current Date : 09/17/2018
